

ENSURING LONG-TERM SUSTAINABILITY

The Board is excited to share information about the **GHI Endowment Fund**. Launched in 2024, this Fund provides a lasting mechanism to support GHI's mission of empowering at-risk communities worldwide.

The **GHI Endowment Fund** improves the agility and sustainability of GHI operations through a focus on supporting our staff. It will enable leadership to pursue transformative initiatives and efforts that are currently limited by funding constraints.

“ We have always believed in working alongside communities and equipping local leaders with the knowledge and skills to foster enduring impact. Our experience shows that long-term, continuous engagement is needed to build disaster resilience and to stay ahead of climate impacts.

The GHI Endowment Fund will enable us to further invest in our local leaders, expand global knowledge sharing and learning, and strengthen our efforts to build disaster resilience in under-resourced communities. ”

- Veronica Cedillos, President/CEO

Our goal is to raise \$2 million in endowment funds. We have received several commitments from dedicated supporters like you, getting us off to a great start. Your gift or commitment to a gift will help us along the path to reaching our goal.

“ In my time as Board Chair I have been impressed with the dedication and drive of our GHI team in working with those most at risk from disasters. This Endowment will provide a stable source of agile funds that can help sustain and strengthen their efforts into the future. ”

- David Friedman, 2023-2024 Board Chair

We welcome immediate gifts, but also encourage our long-time supporters to consider **GHI's Legacy Giving Program**. Giving to the GHI Endowment Fund through estate plans is an excellent option. Please see the form for more information.

Supporting and inspiring our next generation to realize a world that is resilient and better prepared!
